

Welcome to the Centre SIS Documentation!

 We are working on migrating all existing documentation here. Thanks for your patience.

This wiki is the place that you will find all documentation for Centre Student Information System. This wiki is constantly being updated by users around the world. If you have anything to contribute, please do so!

You will be able to find both “quick guides”, which show you how to accomplish a specific task, and Handbooks, which show you what each “screen” in Centre does.
